

Modeler's Forum

23 April 2026

Six in attendance (Bob Wright taking notes and photos).

Bob Willard – When asked what kind of glue he uses on his models, Bob answered Clear Gorilla Glue and other types of Gorilla Glue. He is also working on his portable “O” Scale layout.

Steve Doughty – Brought in a ½ court basketball court with figures to show off. Also had a cutoff tree burl made into a landscape piece with trees and a wolf.

Richard Holman – Just finished assembling Walthers Motorized cranes. He uses contact cement.

Kent Waterson – Showed off his more finished cupola for the White River Junction Depot he has been building.

Carmen Anastase – Just returned from a Panama Canal cruise and shared several photos of the cog (diesel/electric) railway that runs along the locks in the canal. These locos(mules) are used for side-to-side and braking control of the ships in the locks. Received several HO horns for trucks from Roger Plummer.

Bob Wright – Showed off a new HO test track purchased at the April Great Scale Model Train Show.
